

20th International Scientific Conference on Industrial Systems - IS'26

Novi Sad, Serbia • November 19 - 20, 2026.

CALL FOR PAPERS

Important dates:

Abstract Due: **Jun 14, 2026**

Full paper Due: **Aug 30, 2026**

Camera-ready Due: **Oct 23, 2026**

Dear colleagues,

The Department of Industrial Engineering and Management at the Faculty of Technical Sciences, University of Novi Sad, together with the Institute for Artificial Intelligence Research and Development of Serbia, are organizing the milestone **20th International Scientific Conference on Industrial Systems - IS'26**.

IS'26 provides an international forum for researchers, engineers, and practitioners to present and discuss recent advances, emerging trends, and practical challenges in industrial systems.

The central theme of IS'26, **Industry in the Age of AI**, reflects the growing impact of artificial intelligence on industrial systems, and will be covered through the following conference tracks:

PRODUCTION SYSTEMS

From smart factories and digital twins to sustainable and human-centered manufacturing in the age of AI.

MECHATRONICS, ROBOTICS & AUTOMATION

Covering industrial and collaborative robotics, IoT, machine vision, and intelligent automation systems.

INFORMATION & COMMUNICATION SYSTEMS

Exploring AI-driven information systems, digital transformation, data management, and emerging technologies.

QUALITY, EFFECTIVENESS & LOGISTICS

Addressing quality 5.0, sustainable practices, resilient systems, and human-centric approaches in modern industry.

ENGINEERING MANAGEMENT

From corporate strategy and innovation to leadership, ESG, and responsible AI in the digital age.

For a detailed list of topics and full submission guidelines, please visit the conference website: <https://www.iim.ftn.uns.ac.rs/is26/>.

The conference will host a Research & Career Development Workshop Programme for Students and Early Career Researchers.

The conference will be held on-site in Novi Sad, with virtual presentation options available for authors who are unable to attend in person.

We look forward to welcoming you to IS'26.

COMMITTEES

GENERAL CHAIR

Prof. dr Branislav Borovac

HONORARY CHAIR

Prof. dr Ilija Ćosić

PROGRAM COMMITTEE CHAIR

Prof. dr Stevan Stankovski

ORGANIZING COMMITTEE CHAIR

Prof. dr Ivana Šenk

PROCEEDINGS

All papers accepted after the peer review process and presented at the conference will be submitted for publication in Springer Proceedings, indexed in INSPEC, SCImago and Scopus.

Authors of selected conference contributions will be invited to submit extended and substantially enhanced versions of their papers for possible publication in the International Journal of Industrial Engineering and Management (IJIE&M), CiteScore 6.0 | Impact Factor 3.2.
